

Community Resources Program

Initiated on April 1, 2020 to help the Verde Valley COVID-19 pandemic recovery

THE PUBLIC OUTPOURING of support during this challenging time is reassuring—we will recover. The City of Cottonwood is ready to serve, and is collecting resources available in our community, and distributing this generosity through our newly-initiated Community Resources Program (CRP).

The Verde Valley houses a variety of non-profit organizations who help our community in many ways. Providing food, shelter, and counseling are just a few of the services that are available to those in need.

Since the COVID-19 pandemic began to impact Arizona, many of our residents have had to face new challenges, both health-related and otherwise. As these needs began to surface so did people stepping up to lend a hand. Some have reached out to the City to find out what is needed and where it should go. This is how the CRP got started.

Give Help

CAN YOU OR YOUR ORGANIZATION DONATE OR VOLUNTEER? At times like this many of us want to help, but also want our help to go where it is most needed. Contact the CRP to get connected!

Get Help

DO YOU OR YOUR FAMILY NEED HELP? If you need assistance during this time that is presenting hardships to so many, you don't have to go it alone. Contact the CRP to get connected! We will be discreet and do our best to point you in the right direction.

DOES YOUR ORGANIZATION NEED HELP? We have a network working to get help to where it is most needed. Contact the CRP to get connected!
