Current Fiscal Year Fund Balance/Carry Over (Revenue over Expenditures)

General Fund	2,384,800
Library	(252,795)
Airport	130,181
Streets - H.U.R.F.	256,259
Grant Fund	(92,425)
Transit - CAT & LYNX	(315,550)
Debt Service Fund	(1,097)
Capital Improvement Fund	117,487
Other Funds	(286,349)
Total GF & Non-Major	\$ 1,940,512
Water Utility	7,209
Wastewater Utility	1,188,585
Total Enterprise Funds	1,195,794
Total All Funds	\$ 3,136,306

As of the end of November 2023, the City's overall revenues exceeded expenses and the City had only expended 14.22% of the total FY 2024 Council Adopted budget. Although we had seen a slight dip in sales tax/transaction privilege tax (TPT) revenues at the beginning of the year, as of November we are 6% over what we had received from the same period last year. The economy is strong with the federal government predicting a soft landing from the interest rate increases. The sales tax - TPT makes up approximately 60% of the revenues received in the General Fund and over 56% of the total revenues collected for all funds. The current fund balance carryover accumulated in FY 2024 is a total of \$3,136,306, as is shown in the chart to the left. The Wastewater Utilities and Water Utilities both show that the revenue collections are also over expenditures.

Below is a chart that shows sales tax/TPT tax comparisons for 2023 and the beginning of FY 2024. The month of November is actually up by 2% over the same month last year. At the present time the tax collections are up approximately 6% from the same period as last year or \$114,309 over the same period last year. The main increase in tax revenue, as shown in the chart below, is Restaurant and Bar Tax. As we would expect Retail Sales and Retail Sales-Food for Home Consumption make up approximately 72% of the total tax collected. Residential Rental tax makes up approximately 2% of the total tax collected, this tax will not longer be collected starting in January of 2025 due to a new statute adopted by the State in 2023.

SALES TAX (TPT) RESERVES ADDED
FY 2024

At the end of the fifth month of the fiscal year, all expenses ended under where we would expect to see them. Overall, the City has only expended 19.71% of the budgeted amount without carryover/fund balance. In the chart above, you can see the percentage and dollars of the remaining budget of each fund.

Salaries and benefits made up 43% of the City's expenses at a total of \$9.4M at the end of the October. This percentage is lower than past years due to the City fully funding the Public Safety Personnel Retirement System for Police and Fire, decreasing the monthly pension contribution amounts. The budget for FY 2024 has 237 full-time employees budgeted and on average pays 250 to 280 people, some of which are part-time.

The 0.5% Sales Tax (TPT) increase adopted in FY 2019 was allocated to various reserves and to increase funding for HURF (streets), Sidewalks and Transit. For fiscal year 2024 the City has allocated this increase to CIP, Streets, Transit and Reserves. The chart on the left shows the total allocations from July to November of this fiscal year. These allocations will be used to fund future capital projects and support for these departments.

Capital purchases are scheduled by quarter to allow revenues to be collected before large expenditures occur. As of the 2nd quarter of FY 2024 there was a total of \$3.6M in capital expenditures one large item in this total was the new Ladder Truck for the Fire Department at \$1M.
