## Cottonwood Fire Department at Home Depot Fire & Life Safety Day

COTTONWOOD, AZ (October 10, 2013) – On Saturday, October 5<sup>th</sup> 2013, Home Depot and the Cottonwood Fire Department joined forces to celebrate National Fire Prevention Week at Home Depot’s annual ‘Fire and Life Safety Day’. Home Depot supplied kits, tools, and paint for children to build wooden firefighting airplanes. Cottonwood firefighters, including “Squirt” the fire safety clown, assisted the kids with building their planes while spreading important fire safety information. The fire safety tips included: change your smoke detector batteries once a year, know two ways out of each room in case of a fire, practice exit drills in the home (EDITH), and never play with matches.

For further information please contact the Cottonwood Fire Department at 928-634-2741
