Verde Valley SciTech Festival

Discovering the World of Water, Electric, Natural Gas, Wastewater, Recycling, Solid Waste Disposal and Engineering

Come see live demonstrations of how Electricity works and learn how Natural Gas is Detected and Controlled. Come tour a wastewater plant and a potable water wellsite with arsenic remediation. Ask questions to a CAD (Computer Aided Drafting) designer and see survey equipment. Talk to a hydro-geologist and learn about the geology of the Verde Valley. Come see what a vector truck is. Watch a live video feed from a sewer camera. Watch how pumps move and control water volume. Come see how to recycle electronics. See a trash and recycling truck up close. See what goes on in a landfill. Many more events are being added daily so be sure to stop by so you don't miss out on anything. Go to www.vvscitech.org for more info.

EVENT SCHEDULE

When: Tuesday March 24, 2015

Where: 1480 W Mingus Avenue in Cottonwood

Time: 4 pm to 8 pm

Cost: FREE
