

# VERDE VALLEY SCITECH FESTIVAL

Would you like to see what the SWAT team does? Do you know how the police investigate accidents and crimes? Have you ever wondered what a police car looks like inside? Have you ever wondered why the fire department uses foam to put out fires? Do you know how fire fighters find people in smoke filled buildings? Would you like to see the fire trucks and fire equipment up close?

If YOU answered YES to any of these questions then you need to stop by Monday, March 24, between 5:00 pm and 8:00 pm at 199 S 6<sup>th</sup> Street (Public Safety Building) to come see all of these things and more.

Do you ever wonder how a wastewater treatment plant works? Would you like to see a live demonstration of the microorganisms that are utilized in the treatment process? Would you like to see how arsenic is removed from groundwater? Are you interested in the local hydro-geology in the Verde Valley? Do you want to come see a live electrical safety demonstration that uses hotdogs and fruit? Would you like to see natural gas explode inside a chamber? Do you ever wonder where your recycling goes when it leaves your house? Did you ever wonder how to recycle your old electronic equipment? Do you ever wonder what goes on at a landfill? Do you want to see how survey equipment is used? Would you like to see how Computer Aided Drafting is done? Are you interested in avionics? Are you interested in what makes airplanes fly? Do you want to see airplanes and talk to flight team pilots?

If YOU answered YES to any of these questions then you need to stop by Tuesday March 25<sup>th</sup> between 5:00 pm and 8:00 pm to see all of these things and more.

The location for all things utility related, plus engineering and recycling, is 1490 W Mingus Avenue, Cottonwood.

The location for Airplanes and all things Avionic, is 1001 W Mingus Avenue, Cottonwood (Cottonwood Airport).
