

City of Cottonwood  
Fabrication and Erection of One (1) Powder Coated  
Bolted Steel Reclaimed Water Storage Tank  
2016-PW-10 Addendum #1  
May 19<sup>th</sup>, 2016

The City of Cottonwood is currently evaluating the disinfection system for the effluent produced by the wastewater treatment plant which is currently under construction which could modify some of the specifications previously released for our Bolted Steel Tank.

Because of this unknown, we have chosen to extend the bid deadline on this project to Friday, July 8<sup>th</sup> 2016 at 10:00 a.m.

If any modifications need to be made to the tank specified, the City will release another Addenda to address those changes.

Thanks

Jeff Cook
